

Leaders In Training (LIT) Fellowship

About EA USA

EA USA was founded in 2016 by professional educators that had grown increasingly frustrated and discouraged by the restrictiveness of working in urban public schools, and craved the freedom of being able to connect with--and serve-- students, parents, community members, and educators in the ways that they believe to be most reasonable and relevant. EA USA seeks to educate, inspire, and equip individuals to lead in an ever-evolving world.

Fellowship Overview

EA USA is now accepting applications for its next LIT Fellowship Cohort. Ideal applicants will be first- or second-generation college students or early career professionals with good communication skills and a strong work ethic. **No previous work experience is necessary to apply, but a willingness to learn and a team-oriented attitude are musts!**

Fellows will participate in a unique 12 month research-based leadership training program which includes career readiness coaching, professionalism and ethics training, individualized mentorship and one-on-one personal coaching sessions with a Professional Success Coach, exclusive access to personal and professional networking opportunities, valuable work experience, personal growth trainings, as well as access to tools and resources for personal and professional advancement. Top performing fellows will have the opportunity to interview for a position with one of our affiliate organizations. **LIT Fellows are determined to achieve and surpass each of their goals; if this describes you, apply today!**
